

Invitation

To join our **natural building** and **practical permaculture workcamp**

Running in August-October

Hosted by CARE
and Permacult

(www.care.earth)

(www.permaculture-design.net)

In Val de Louyre et Caudeau, Dordogne, France

Learn basic permaculture and natural building skills, enjoy community, campfires, skills sharing and learn more intimately about CARE, Center for Arts and Renewable Energy, and how you can be involved in our ongoing initiatives. We are offering this inaugural program to help kickstart our permaculture site, restore and renovate the core facilities at CARE and prepare the 'homebase' for our projects, events and festival which we will host next year.

We follow a community-based, biophilic, nature-driven, arts and technology innovation approach that works to support healthy societies and regenerate the Earth. We would like to extend our network and outreach so we can all do this work together.

Some of the planned activities in August/September will include:

- Permaculture gardens setup
- Building garden beds with wood, stones and clay
- Bathroom renovation and plastering
- Applying clay, cob and lime plasters on walls
- Greywater filtering system setup
- Fireplace setup and decorations
- Building a pizza-oven
- Setting up an anerobic digester, composting, etc.

Participation is on donation basis.

Depending on the situation, we may ask you for a fee to cover the basic running and facilities cost, such as water, electricity etc.

As the pandemic and therefore the regulatory situation keeps changing, please get in touch and we will let you know, what is the current status and what we are working on right now and whether we can host you or not. Let us know your experience and motivation and possible times of stay, as well and we will get back to you asap!

Any inquiries please contact: contact@care.earth.

Pls check our website care.earth for updates, as well!

To receive occasional updates and invitations to our workshops, trainings and events to come, drop us an email: contact@care.earth.

We are looking forward to welcoming you and having a creative, productive and transformative time together!
